

2022 SPECIAL ISSUES

February Environmental, Health and Safety in the Foundry

Deadline: Early January 2022

This stand-alone supplement, mailed with the February 2022 issue of *Modern Casting*, will show how metalcasters are improving the health, safety and environment of their facilities. Case studies will share real-world examples of EHS strategies and solutions. Recent AFS safety award winners will also be highlighted.

March CastExpo Pre-Show Issue

Deadline: Early February 2022

Preview what to expect at **CastExpo**, including the exhibit floor map, list of exhibitors and schedule of technical and management presentations.

May CastExpo Post-Show Issue

Deadline: April 20, 2022

A recap of events in the first major face-to-face North American metalcasting exhibition in two years.

State-of-the-Art Foundry

Deadline: April 20, 2022

This stand-alone supplement, mailed with the May issue, focuses on equipment, software and strategies for the modern foundry.

September Metalcasting Supplement

Deadline: August 20, 2022

A product-driven publication focusing on the latest technologies in metalcasting and delivered with the September issue of *Modern Casting*.

November Annual Buyer's Guide

Deadline: October 20, 2022

This directory of AFS Corporate Member metalcasting vendors and service providers indexes listings by manufacturers, products and product categories.
